

# CLIMATE CHANGE DAY

First Saturday in December

MAKE  
A  
DIFFERENCE

MAKE  
A  
DIFFERENCE

"Federal policy over the past century has largely failed to promote an energy system based on safe, secure, economically affordable, and environmentally benign energy sources. The tax code, budget appropriations, and regulatory processes overwhelmingly have been used to subsidize dependence on fossil fuels and nuclear power. The result: increased sickness and premature deaths, depleted family budgets, acid rain destruction of lakes, forests, and crops, oil spill contamination, polluted rivers and loss of aquatic species and the long-term peril of climate change and radioactive waste dumps—not to mention a dependency on external energy supplies." ~ Ralph Nader
